Instruction: This form, when completed, will be filed in the Vital Documents Repository. It should provide information to facilitate contact of the agent under wartime conditions and to indicate how he may be used under that circumstance. Attach to this form a typewritten document covering at the least the following PRQ I and II information:

- A. PRQ, Part I - Items 1, 4, 5, 8, 9, 15, 16, 24, 25, 27, 29, 30.
B. PRQ, Part II - Items 37, 39, 40, 43-46, 49, 50, 51, 53, 55, 56.
(Include clearance status and data on contract status, if any).

Please complete the following:

- (1) Indicate briefly for what purposes (FI, CE, PP, PM) Subject could be used under wartime conditions. Identify general targets and target areas to which Subject would probably have access.

If subject and some of his key personnel could be successfully evacuated to safe territory he could presumably produce propaganda. FI CE or PM potential might be present but cannot be estimated at this time.

- (2) Does Subject have "stayability" in event of war? Would he be subject to draft?

Subject is not likely to be drafted because of age, but would probably volunteer for Public Information assignments with his old branch of service, the Navy. Subject also has good connections with the Federal Government of West Germany which might provide him with employment and thereby "stayability".

- (3) Record the extent of training Subject has received in clandestine communications.

File indicates that he has not received any such training.

- (4) Describe briefly for what purposes Subject is being used and has been used in past by KUBARK.

Subject was originally contacted by KUBARK in early 1951 and has functioned in the capacity of free-lance journalist, editor and publisher throughout the entire relationship.

- (5) List the KUBARK officers who have handled Subject or whom he has otherwise come to know. Include names by which the KUBARK officer was known and the period over which the contact was maintained.

(Alias not known)

- (6) List the other individuals (agents, relatives, friends) who know of Subject's intelligence activity.

Subject's wife who is also employed in the project and such associates in the project who themselves are witting of the intelligence connections of the project activity.

- (7) Record the details of arrangements for emergency recontact, including recognition signals, signal and cipher plans, and secret writing or other communications arrangements.

None made.

- (8) Record the possible methods of recontacting Subject with whom no specific recontact arrangements have been made. Indicate whether Subject could be contacted at place of work, at home, on street or other location. What name (such as alias or former case officer) and/or message could be used to help establish bona fides of the individual making the contact?

No information

- (9) Record the compensation or salary paid Subject, if any, and the method and currency used in making these payments.

Subject is paid \$200 M/month in East German marks.

- (10) Record evacuation commitments, if any, which have been made to Subject. Do they include his family?

Subject has been promised assistance to himself and family and as a condition for (1) an original agreement which was prepared in December 1953 of his staff in the event that flight from Berlin became necessary.

- (11) Record any other commitment made to Subject on which he might base a possible claim against ODRONE after the emergency.

None recorded.
